

AL-200

Mute Lock

Features

- Electric locks, sound light, wear-resistant
- LED indicator, lock status
- Auto-lock, all directions
- Input: NO/NC signal
- Wide voltage(12~18V)

Technical Specification

Electronic

| | |
|-----------------------|----------|
| Rated voltage | DC12-18V |
| Instantaneous current | 1.5A |
| Power-on time | 0.25s |
| Power | 4W |

General

| | |
|-----------------------|--|
| Applications | Wooden doors, glass doors, metal doors |
| Life | >100 W |
| Dielectric strength | 250V (2 minutes without breakdown) |
| Power line resistance | <1.5 |

Working Environment

| | |
|---------------------|-------------|
| Working humidity | 10%~93%RH |
| Working temperature | -40°C~+70°C |
